# Golf Hero: UX/UI

A user experience/user interface sample of team "Just some randos"' final C01 project, "Golf Hero" (name to be decided).

Each view/screen has elements shown, as well as which corresponding view/screen is shown when the user interacts with certain elements (e.g. Clicking a "Shop" button, etc.).

The features/interface designs shown are a draft for Sprint 0, screens and features may be added or removed in upcoming sprints. Some features (e.g. "Shop" are shown, but are not part of the backlog for Sprint 1. For details in regards to which features will be included in Sprint 1, please refer to PB.md located within the GitHub repository.
